

The “smart” choice in personal navigation!

Mobile phone, diary, internet, email.

Your new HTC P3300 meets all the modern day requirements. Add TomTom NAVIGATOR 6 and you'll also arrive at every appointment relaxed, on time and ready to do business. Get the best out of your HTC device with TomTom NAVIGATOR 6.

TomTom NAVIGATOR 6 comes with the latest award-winning, user-friendly navigation software and *maps of your country with all major roads of Western Europe; or a detailed map of the whole of Western Europe. Clear door-to-door audio instructions through the speaker of your new HTC P3300, coupled with 2D or 3D maps on your screen guide you to your destination. And when you're handling calls, voice instructions mute automatically, allowing you to have a conversation and still be guided by the route on screen.

The maps and navigation software come on a ready-to-use DVD or memory card that installs instantly, from that moment on you have unlimited usage with no additional costs.

TomTom

All the benefits of smart but easy TomTom navigation.

Easy-to-use navigation: award-winning software and user friendly interface.

Latest maps: enjoy access to an extensive selection of maps for all of Western Europe.

Best routes and clear instructions: maps in 2D or 3D view with spoken instructions in more than 36 languages and over 50 different voices.

Easy installation: maps and navigation software come on a ready-to-use DVD or memory card that installs instantly.

View Routes: review your route before you set off.

Route Choice: choose your route to fit your preferences: quickest, shortest, by foot or avoiding toll roads and congestion charges, and more.

Itinerary Planning: schedule in a program of places to visit before leaving the house.

Fast re-route calculations: if you miss a turn or instruction, your TomTom immediately reappraises the situation and gets you straight back on track.

Easy Location Selection: choose how you want to define your destination: street & house number, postcode, city centre or intersection.

Easy phone call handling: voice instructions mute automatically, so you can take a call while continuing to follow the route instructions on your screen.
